10-1424 Panel Signs O&M

SIGNAGE &
ARCHITECTURAL
ELEMENTS

GENERAL SIGN CLEANING AND MAINTENANCE

ACRYLIC FACE SIGNS

If needed these sign (i.e., office / directional) faces can be simply washed with a mild detergent and soft brush or sponge. Car wash soap works well in this application. Posts and backs can be cleaned the same way.

TRAFFIC SIGNS

Clean with mild detergent and soft brush or sponge.

EXTERIOR RULE SIGNS

These are digitally printed signs and should only be rinsed with clear water to remove dust and dirt.

INTERIOR RULE AND ROOM SIGNS

As most are an acrylic type sign it is best to clean with a spray window type cleaner and soft towel.
